

## Trainline Partner Solutions (TPS) provides industry-leading, innovative rail technology solutions for travel management companies, businesses of all sizes and rail carriers:

Our **Distribution Solutions** business is a leading distributor of global rail content providing easy access via one simple, standardised API connection.

Our **Carrier IT Solutions** business provides a high-quality, fast and secure tech platform delivering retailing and ticketing services to rail carriers.

**Trainline Business Solutions** gives employees at businesses of all sizes, in the UK and Europe, an easy way to book rail for business travel.

Our aim is to make the complex world of business travel and ticket retailing simple, so more companies and their employees choose a greener way to travel.

Trainline brings together millions of routes, fares and journeys from more than **270 rail and coach carriers across 45 countries** across Europe and Asia.

TPS unlocks the power of the world's leading independent train and coach platform with a proven scalability of around **90m visits per month<sup>1</sup>** and over **300 updates** per week.

The Trainline team numbers more than 600 people and more than 40 nationalities, including **300+ travel tech specialists and engineers**.

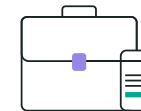

**>70 customers are using** Trainline's Distribution Solutions, including SAP Concur, CTM and BCD.

The EU Commission has set an ambition to **triple high-speed rail activity** by 2050<sup>2</sup>, as part of its commitments marking the **European Year of Rail** (2021).

Trainline customers are expected to **save 600k tonnes of CO2 over the next three years** by moving customers to more sustainable travel modes - equivalent to the CO2 absorbed by **9 million trees** over the same period<sup>3</sup>.

Three in five (59%) business travellers will be more likely to consider rail compared to before the pandemic, with **one in five (20%) doing so to reduce their carbon footprint<sup>4</sup>**.
